SUMMARY

Recent Computer Engineering graduate with hands-on experience in data analytics, dashboard development, and business reporting through internship and academic projects. Skilled in SQL, Python, Power BI, and Excel for transforming complex data into actionable business insights. Strong analytical mindset with experience building KPI dashboards, identifying trends, and supporting data-driven decision-making. Quick learner with excellent problem-solving skills and a passion for improving business processes using analytics and automation.

PROFESSIONAL EXPERIENCE

Python Data Analytics Trainee, QSpiders 01/2026 – 04/2026 | Ahmedabad, Gujarat

- Developed interactive Power BI dashboards, KPI reports, and business visualizations using Power BI and Excel to monitor business performance and support data-driven decision-making.
- Collected, cleaned, transformed, and analyzed structured business data using SQL, Python, and Excel, improving reporting accuracy and delivering actionable business insights.
- Built analytical reports and visualizations to identify trends, track KPIs, communicate findings to stakeholders, and support business discussions and operational improvements.

EDUCATION

Bachelor of Engineering in Computer Engineering

2022 – 2026 | Ahmedabad, Gujarat

Ahmedabad Institute of Technology, GTU

CGPA: 8.40/10

SKILLS

Power BI: Power BI Desktop, DAX, Power Query, Data Modeling, Dashboard Development, KPI Reporting, Business Dashboards, Data Visualization

SQL: PostgreSQL, MySQL, Google BigQuery, Joins, Aggregate Functions, Window Functions, CTEs, Subqueries, Query Optimization, Basic Stored Procedures

Python: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Selenium, BeautifulSoup, Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Data Analysis

ML: Regression, Classification, Random Forest, XGBoost, Logistic Regression, Feature Engineering

Excel: Pivot Tables, XLOOKUP/VLOOKUP, Power Query, Power Pivot, Dashboard Creation, Data Visualization

Statistics & Analytics: Descriptive Statistics, Hypothesis Testing, Correlation Analysis, Trend Analysis, Business Intelligence, Business Analytics

Tools: Git, GitHub, Jupyter Notebook, VS Code, Streamlit, Oracle SQL Developer, Microsoft Office, Google Workspace, Power Automate (Fundamentals), Qlik Sense (Fundamentals)

Core Skills: Data Analysis, Business Analytics, Data Cleaning, Data Transformation, Data Visualization, Dashboard Development, KPI Reporting, Business Reporting, Business Intelligence, Business Insights, Trend Analysis, Decision Support

CERTIFICATES

Cisco Networking Academy – Data Analytics Essentials [🔗](#)

HackerRank – SQL (Intermediate) [🔗](#)

HackerRank – Python (Basic) [🔗](#)

Simplelearn – Introduction to Data Analytics [🔗](#)

PROJECTS

Credit Card Financial Dashboard | Power BI, DAX [🔗](#)

- Built an interactive Power BI dashboard using DAX to analyze 10K+ customer records, enabling KPI tracking and business performance monitoring.
- Identified high-value customer segments and actionable insights by analyzing transaction type, income, education, marital status, and card type to support data-driven decisions.

Customer Churn Prediction | Python, ML, Power BI, Streamlit [🔗](#)

- Built an end-to-end analytics solution on 12K+ customer records using SQL, Python, Power BI, and Machine Learning, achieving ~82% prediction accuracy.
- Developed an interactive dashboard and real-time prediction app, identifying key churn drivers to support proactive customer retention strategies.

SmartSpec Analytics | Pandas, NumPy, Selenium, PostgreSQL, Power BI, Streamlit, Scikit-learn, Matplotlib [🔗](#)

- Collected, cleaned, and analyzed 5,627 smartphone records using web scraping, SQL, and Python to uncover pricing trends and business insights.
- Developed Random Forest and XGBoost models with 97.09% R^2 for price prediction and delivered interactive analytics for market analysis.
