SUMMARY

Recent Computer Engineering graduate with hands-on experience in data analytics, SQL, Python, Power BI, Advanced Excel, and dashboard development through internship and academic projects. Skilled in collecting, cleaning, analyzing, and visualizing data to identify trends and deliver actionable insights that support business decision-making. Strong foundation in statistical analysis, data interpretation, and reporting with a passion for solving business problems using data.

PROFESSIONAL EXPERIENCE

Python Data Analytics Trainee, QSpiders 01/2026 – 04/2026 | Ahmedabad, Gujarat

- Collected, cleaned, and analyzed business datasets using Python, SQL, and Advanced Excel, improving data quality and enabling accurate business reporting.
- Developed interactive Power BI dashboards and KPI reports to monitor business performance and support data-driven decision-making.
- Performed exploratory data analysis (EDA), statistical analysis, feature engineering, and model evaluation to identify trends and generate actionable insights.

EDUCATION

Bachelor of Engineering in Computer Engineering

2022 – 2026 | Ahmedabad, Gujarat

Ahmedabad Institute of Technology, GTU

CGPA: 8.40/10

SKILLS

SQL: PostgreSQL, MySQL, Google BigQuery, Joins, Window Functions, CTEs, Subqueries, Query Optimization, Basic PL/SQL

Python: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Selenium, BeautifulSoup, Data Cleaning, Data Preprocessing, EDA, Data Validation

Power BI: Power BI Desktop, DAX, Power Query, Data Modeling, Dashboard Development, KPI Reporting, Data Visualization

Excel: Advanced Excel, Pivot Tables, XLOOKUP/VLOOKUP, Power Query, Power Pivot, Conditional Formatting, Dashboard Creation

Statistics & Analytics: Descriptive Statistics, Hypothesis Testing, Correlation Analysis, Business Analytics, Business Intelligence

ML: Regression, Classification, Logistic Regression, Random Forest, XGBoost, Feature Engineering, Model Evaluation, Predictive Analytics

Tools: Git, GitHub, Jupyter Notebook, Streamlit, VS Code, Oracle SQL Developer, MS Office (Excel, PowerPoint, Word), Looker Studio, Google Sheets

Core Skills: Data Analysis, Machine Learning, Data Visualization, Data Management, Dashboard Development, Business Reporting, Data Storytelling, Process Improvement

CERTIFICATES

Cisco Networking Academy – Data Analytics Essentials [🔗](#)

HackerRank – SQL (Intermediate) [🔗](#)

HackerRank – Python (Basic) [🔗](#)

IBM - Data Analytics Using Python [🔗](#)

PROJECTS

Credit Card Financial Dashboard | Power BI, DAX [🔗](#)

- Built an interactive Power BI dashboard using DAX to analyze 10K+ customer records, enabling KPI tracking and business performance monitoring.
- Identified high-value customer segments and actionable insights by analyzing transaction type, income, education, marital status, and card type to support data-driven decisions.

Customer Churn Prediction | Python, ML, Power BI, Streamlit [🔗](#)

- Built an end-to-end analytics solution on 12K+ customer records using SQL, Python, Power BI, and Machine Learning, achieving ~82% prediction accuracy.
- Developed an interactive dashboard and real-time prediction app, identifying key churn drivers to support proactive customer retention strategies.

SmartSpec Analytics | Pandas, NumPy, Selenium, PostgreSQL, Power BI, Streamlit, Scikit-learn, Matplotlib [🔗](#)

- Collected, cleaned, and analyzed 5,627 smartphone records using web scraping, SQL, and Python to uncover pricing trends and business insights.
- Developed Random Forest and XGBoost models with 97.09% R^2 for price prediction and delivered interactive analytics for market analysis.
